

# St Philomena's

Catholic High School for Girls

## Transfer to Secondary School (TSS) 2021 Live Webinars

**St Philomena's is a hugely successful, Catholic, non-selective, comprehensive girls' school for students aged 11-18 years.**

Due to the current restrictions and keeping in line with the published social distancing guidance, all Open Mornings will be held remotely through a live webinar detailing admission to the school. The Headteacher will speak during each webinar and you will have the chance to type questions for the Head to address during each live session.

The webinars will take place on a range of days and times to accommodate family needs, each will be one hour in length. Spaces are limited to 40 and booking is essential via the link below. Should there be an increased demand for spaces, extra webinars may be added.
